

CAMP Summer 2021

COVID-19 Policies and Procedures

Please understand that given the dynamic nature of this pandemic, this information may be modified as the situation evolves, and new data becomes available.

The purpose of this policy is to create an environment that allows CAMP to operate during the pandemic. This document outlines the practical applications of prevention strategies to mitigate the spread of infection and allow for more rapid identification of suspected or confirmed cases of COVID-19. During this pandemic, the following policies and procedures will be used to ensure compliance and best practice recommendations outlined by the Centers for Disease Control and Prevention (CDC), the American Camp Association (ACA), the Occupational Safety and Health Administration (OSHA), and the Texas Department of State Health Services (DSHS), are upheld by Campers, Staff, and Volunteers (hereinafter the “Participant” or “Participants,” if not otherwise specifically stated).

Summer Camp

Summer 2021 includes modified summer sessions available for a reduced number of Participants and without high-risk diagnoses. In adherence with the guidance from the above entities, CAMP will use the following criteria for all Participants who are participating in 2021 Summer Camp.

- CAMP will be unable to accept Campers who require overnight (i.e., 24-hour awake) medical care or have severe behavioral challenges/needs.
 - Guidelines to help define behavioral challenges and needs:
 - Harm to self or others that may require physical intervention (e.g., restraint) by a caregiver/teacher/counselor etc...
 - Physically aggressive behaviors (e.g., biting, self-harm, hair-pulling, hitting, kicking, property damage)
 - Unwillingness/Inability to stay with assigned group or in one location without frequent physical redirection.
 - Requiring more than one counselor to provide direct care for a successful CAMP session.
 - Unwillingness/Inability to stay in assigned Camper cabin during rest/sleep periods.
 - Requiring a sleeping location that is not within the assigned Camper cabin.
- CAMP will observe the conditions outlined by the CDC that are at increased risk of severe illness from the virus that causes COVID-19, when determining eligibility for all Participants.
 - CAMP acknowledges COVID-19 is a new disease and the increased risk conditions defined by the CDC are modified as more information becomes available.
 - Increased Risk Conditions
 - Cancer
 - Chronic kidney disease
 - COPD (chronic obstructive pulmonary disease)
 - Down syndrome
 - Heart conditions, such as heart failure, coronary artery disease, or cardiomyopathies

- Immunocompromised state (weakened immune system) from blood or bone marrow transplant, immune deficiencies, HIV, use of corticosteroids, or use of other immune weakening medicines
 - Obesity (body mass index [BMI] of 30 kg/m² or higher but < 40 kg/m²)
 - Severe Obesity (BMI ≥ 40 kg/m²)
 - Pregnancy
 - Sickle cell disease
 - Smoking
 - Type 2 diabetes mellitus
- COVID-19 is a new disease. As such, there are limited data and information about the impact of many underlying medical conditions and potential increased risk for severe illness from COVID-19. Based on what we know at this time, adults and children who have any of the following conditions outlined by the CDC **might be at an increased risk** and will receive additional medical review prior to consideration of acceptance. The full list of those who might be at increased risk can be found here:
 - <https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-with-medical-conditions.html>
 - It is the responsibility of each Participant or Caregiver to familiarize themselves with the above CDC criteria.
- If a Participant has any of the determined increased risk conditions and will not receive the COVID-19 vaccine prior to attendance, they will be ineligible to attend a summer session.
- If a Participant has any of the determined increased risk conditions and will receive the complete COVID-19 vaccine prior to attendance, their application will be eligible for medical review and consideration.
- All approved Participants will be required to have a negative COVID-19 test result obtained within 72 hours before arriving to CAMP. This means staff and returning volunteers will be required to test at least weekly.
- Participants who have received a complete COVID-19 vaccine will still be required to provide a negative test result obtained within 72 hours prior to arrival.
- All Participants must wear a face covering over the nose and mouth when inside buildings or space open to the other Participants, or when in an outdoor public space, wherever it is not feasible to maintain six feet of social distancing from another person not in the same cohort; provided, however, *in accordance with Governor Abbott's Executive Order GA 29 that this face-covering requirement does not apply to the following:*
 - any person with a medical condition or disability that prevents wearing a face covering.

Pre-Screening Requirements

Participants will be required to complete the Pre-Screening form and bring it (electronically or paper) with them for check-in to camp. If there has been any potentially contagious illness or COVID-19 in the household 10 days prior to camp, do not come and contact CAMP Staff immediately.

A. Participant Documentation

- Self-Reported daily temperature and symptom check log must be kept for all Participants 10 days prior to event.

- CAMP will require a negative COVID-19 test in the 72 hours prior to camp. This method is only effective if the Participant isolates/quarantines from the time of the test until arriving at Camp CAMP.
- CAMP will require proof of the completed Pre-Screening form
- If any Participant arrives without the proper documentation listed above, they will not be able to access the Facility.

Arrival and Participant Screening

The protocols listed below are intended to be a minimum standard but may not be exhaustive. The immune status, risk factors, and acuity of specific participants should be taken into consideration when implementing the specific protocols. At a minimum, any Participant who has a temperature greater than or equal to 100.0° Fahrenheit, or other signs of illness, will not be allowed into the Facility. Participants should educate themselves to be on alert for signs of illness in themselves and anyone in their household. If a Participant (or anyone in their household) exhibits any of the symptoms identified for screening (see below), the Participant(s) will NOT be permitted to enter Camp CAMP. The policies below are in addition to the standards already in place.

A. Arrival Expectations

- The following expectations apply to all Participants:
 - All Participants and family members in the vehicle must be prepared with face coverings upon arrival. Unless, *in accordance with Governor Abbott's Executive Order GA 29, that this face-covering requirement does not apply to the following:*
 - any person with a medical condition or disability that prevents wearing a face covering.
 - All Participants are expected to bring their own masks.
 - Only essential individuals (i.e., Participants expecting to remain at Camp CAMP throughout the event, and one parent/guardian/caregiver with each Camper to assist with check-in) should come to the check-in area to avoid crowding, and social distancing of at least 6 feet must be maintained during check-in; anyone who is providing a ride to another individual and not staying for the event should remain in their vehicle.
 - Hand sanitizer will be used upon arrival by all Participants at CAMP events.
 - Participants will practice social distancing from one another during the arrival and check-in process, if able.

B. Arrival Screening

- When Participants arrive, CAMP will verify and collect pre-screening documentation and record temperatures for all individuals in the vehicle, prior to allowing entrance into the Camp CAMP facility (hereinafter "Facility") located at 515 Skyline Drive in Center Point, Tx.
- At this time, all individuals in the vehicles must show their completed COVID Pre-Screening All Access Pass to verify that all responses to the following symptoms were "no":
 - Fever greater than or equal to 100.0° Fahrenheit
 - Chills
 - Cough

- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

While at Camp

Participants will remain as a cohort (hereinafter Tribe or Half Tribe) upon arrival and throughout the duration of the session. A Tribe will consist of pre-assigned individuals who will participate as a small cohort for the duration of the session. Once at camp, Participants will be required to stay with their Tribe and not interact with other Tribes at camp to reduce the chance of spreading COVID-19.

A. Ongoing Screening

- Daily symptom reviews and temperature checks will be performed by designated CAMP staff for all Participants. Ongoing screening will be documented.

B. Occurrence of Positive Test Result or Active Symptoms while at CAMP

- If any Participant has a temperature of 100.0° degrees Fahrenheit or more, they will be isolated immediately in our specified Health Care Center COVID-19 isolation room, without coming into contact with others, spaces, or equipment while making their way there if at all possible, and maintaining at least 6 feet of separation from others while in transit if unable to avoid others altogether.
 - The Camp Nurse, Camp Director, and/or Executive Camp Director should be notified of the symptoms immediately and may be reached by phone or text to help minimize contact.
- The parents of any Camper or minor Staff or Volunteer will be contacted immediately and asked to pick up the Participant and take them home as soon as possible, but no later than 8 hours following the initial phone call. If the parents are not available to pick up, the emergency contact will be required to come get the Participant.
 - Any Participant showing symptoms will be required to wear a medical grade mask (masks and social distancing should already be standard practice even without a positive screening/demonstration of symptoms, but CAMP will supply a medical grade mask for Participant(s) who have screened positive or are showing active symptoms if needed).
- If a Staff or Volunteer is showing symptoms and has their own transportation, they should return to their cabin, pack their belongings, and leave Camp CAMP if feeling well enough to safely drive themselves, or have another friend or family member come pick them up if needed; If waiting for a ride, they may be instructed to move out of their assigned cabin to an area where they can be isolated until a ride is available.

- Any Participant screened positive or showing active symptoms will also be asked to identify all other Participants with whom they have come into contact to facilitate onsite contact tracing as necessary.
- Once any Participant screened positive or showing active symptoms has isolated from any public/common spaces at Camp CAMP, cleaning and disinfecting procedures as outlined in this document will be followed by CAMP Staff.
- If CAMP is unable to procure a nucleic acid-based COVID-19 tests to administer onsite, CAMP will direct the Participant to the nearest clinic to obtain a nucleic acid-based COVID-19 test on their way home.
- Participants will be directed to remain in quarantine/self-isolation until test results are received.
- If 3 or more Tribes have had any identified positive cases of COVID-19, CAMP will work with state or local public health authorities, as applicable, regarding continued operations of the camp session.
- CAMP will follow CDC guidelines for any Participant who tests positive for COVID-19 during or after an event. These guidelines include, but are not limited to, notifying the health department of a positive case, identifying what individuals the Participant who tested positive may have been in contact with while at Camp CAMP, informing anyone in our community with potential exposure within 12 hours of the confirmed case while maintaining confidentiality, and ensuring all the following criteria are met before allowing the individual to participate in another CAMP event:
 - At least 72 hours have passed since recovery (resolution of fever without the use of medication)
 - Significant improvement in symptoms
 - At least 10 days have passed since symptoms first appeared
- If any Participants have potentially been exposed to an individual who has tested positive, they will be directed to self-isolate at home for 10 days, monitoring symptoms during that time period to include twice daily temperature checks, and to seek medical assistance if they develop symptoms that become severe.
- In the case of a Staff member who has symptoms that could be COVID-19 and does not get evaluated by a medical professional or tested for COVID-19, the individual is assumed to have COVID-19, and the individual may not return to work until the individual has completed the same three-step criteria listed above; or –
- If the Staff member has symptoms that could be COVID-19 and wants to return to work before completing the above self-isolation period, the individual must obtain a medical professional’s note clearing the individual for return based on a negative nucleic acid COVID-19 test and an alternative diagnosis.

Ongoing Expectations of Participants

All Participants will be expected to follow the CDC precautions to protect themselves and others while at CAMP.

- Participants will wash hands frequently using soap and water or an alcohol-based hand rub.

- Participants will cover mouth and nose with flexed elbow or tissue when coughing or sneezing and dispose of used tissue immediately.
- Participants will avoid close contact, if able, with anyone who has cold or flu-like symptoms.
- Participants and CAMP Staff will regularly clean and disinfect frequently touched surfaces like phones, doorknobs, light switches, and countertops.
- Participants will seek medical care early if they have a fever, cough, or difficulty breathing.

CAMP Staff and Volunteers (Kitchen, Program, and Maintenance) must wear approved face coverings while interacting with any Participants, preparing or serving food, or cleaning. Kitchen Staff and Maintenance Staff will also wear gloves, which will be changed often, as appropriate. All staff are expected to wash their hands and use hand sanitizer regularly and between interactions with other Participants.

Washing Hands and Hand Sanitizer

Signs encouraging active handwashing along with readily available and strategically placed hand sanitizer stations will be available to use throughout Camp CAMP. CAMP Staff will STRONGLY encourage handwashing and use of sanitizer throughout the day for all Participants.

Visitors/Donors/Tours

Due to the pandemic, visitors/donors/day-volunteers may not be permitted during programs (with the possible exception of day volunteers who are screened upon arrival and leading only one specific activity and not returning again once they leave Camp CAMP for that session). All staff and volunteers participating in the program will remain at Camp CAMP for the duration of the session, or if they need to leave prior to the end of the session for any reason, they will not return for that session.

Kitchen and Food Service

Utensils and Plates

- Dining Hall plates, utensils, cups, serving platters, and other various dishes may be used, and will be appropriately cleaned and disinfected between uses.

Food Preparation and Meal Service

- All Participants must wash their hands prior to preparing or serving a meal.
- CAMP will follow all applicable Federal, State, and Local regulations and guidance related to safe preparation of food.

Food Safety and Meal Service Modifications

- Doors for entry and exit of the Dining Hall, and guidelines for traffic flow throughout the Dining Hall, will be designated.
- Tables will be assigned to each Half Tribe and each Half Tribe will be required to eat at the same table for the duration of the session.
- CAMP will arrange tables and chairs to allow for proper social distancing between each Half Tribe.
- Tables, benches, and chairs will be washed and sanitized between uses.

- Thorough hand washing (20 seconds with warm water and soap) for all Participants will be required before and after eating.
- There will be no self-service options or buffet-style food offerings (such as a salad bar) due to high risk of contamination.
- All individuals serving food will be required to wear a face covering and gloves while serving.
- Food will be served family-style at the table:
 - A CAMP staff member (hereafter, “Server”) will deliver trays of food to each table.
 - Servers will wear masks and gloves at all times while serving.
 - When a Server provides refills of food or beverages for family-style meals, new dishes will be provided each time.
 - Special diet items for all Participants with food allergies/special diets will be served to them at their designated table.
 - Half Tribes will be oriented on the system used to indicate to their Server that they need food/drink refills or general assistance during their first meal at Camp CAMP.
 - Only designated Servers will be allowed to touch/use the beverage or cereal dispensers, and will wear gloves/follow sanitizing guidelines according to their training; Other Participants will not touch/use the beverage or cereal dispensers.
 - Participants will be asked to remain seated at their respective table unless entering or exiting the Dining Hall, or visiting the restrooms. All needed items will be brought to the tables by a Server.
 - At the end of the meal, Tribes will leave all dishes, utensils, etc., on their table and their Server will clear them.
 - Servers should wash their hands after removing their gloves or after directly handling used food service items.
- All non-disposable food service items will be cleaned and sanitized in a commercial dishwasher; CAMP Staff will ensure mechanical dishwashers are functional with the appropriate type and amount of sanitizer and appropriate temperature for sanitizing utensils and food contact surfaces.
- Participants will be issued water bottles that may be filled at their cabins (CAMP will provide a cooler of icewater for their cabin) or at water bottle filling stations throughout the event; Other drinks will be available during meals from Servers.

Cleaning and Disinfecting

For Summer 2021, the cabins and all buildings will be cleaned and sanitized prior to arrival of Participants. Participants should inform CAMP Staff if any housekeeping is needed over the course of the session.

Areas prone to high use or touch, such as bathrooms, doors/doorknobs, light switches, sink faucets, countertops, and tables, will be disinfected multiple times daily and after each scheduled use. A chart will be present in all common area bathrooms, noting each instance of disinfection. Disinfecting wipes will also be provided in each public restroom area, and wipes should be thrown away after use. Flushing them causes problems with our wastewater system. Whenever possible, we encourage Participants to return to their assigned cabin to use the restroom, thus minimizing their exposure to viruses that could

be transferred through public restroom use. Participants should alert CAMP staff if there is a bathroom or other location that needs immediate cleaning/sanitizing attention.

Staff and Volunteers will wear disposable gloves and approved PPE while performing all cleaning tasks, including handling trash. Staff and Volunteers should immediately report breaches in PPE such as a tear in gloves or any other potential exposures to their supervisor. Staff and Volunteers will be expected to wash their hands thoroughly and often, including immediately after removing gloves and/or after contact with an ill person.

- Gloves will be compatible with the disinfectant products being used to prevent tears or deterioration. Only **latex-free** gloves are allowed on CAMP property.
- Additional PPE may be required based on (a) the cleaning/disinfectant products being used, (b) the risk of splash, or (c) in response to potential biohazards.
- Gloves should be removed carefully to avoid contamination of the wearer and the surrounding area; All staff are expected to wash hands thoroughly after removing gloves.
- Reusable (washable) clothing or cleaning materials should be laundered after each use; All Staff and Volunteers are expected to wash hands thoroughly after handling dirty laundry.

All Participants should follow normal preventive actions while at CAMP and after returning to home and/or work, including washing hands, and/or using hand sanitizer regularly, and avoiding touching eyes, nose, or mouth with unwashed hands.

Cleaning of Hard (Non-porous) Surfaces

- Hard surfaces that are dirty should be cleaned using a detergent or soap and water prior to disinfection (See “Disinfecting” below for next steps).

Cleaning of Soft (Porous) Surfaces

- Soft (porous) surfaces, such as carpeted floors, rugs, and drapes, should have visible contamination removed if present and then cleaned with appropriate cleaners indicated for use on these surfaces. After cleaning:
 - If the items can be laundered, they should be laundered using the warmest appropriate water setting for the items and dried completely.
 - Otherwise, use products that are EPA-approved and that are suitable for porous surfaces.
 - Use appropriate disinfectants (see “Disinfecting” below) as applicable.

Linens, Clothing, and Other Items That Go in the Laundry

- To minimize the possibility of dispersing viruses through the air, dirty laundry should not be shaken.
- Items should be washed as appropriate in accordance with the manufacturer’s instructions; If possible, items should be laundered using the warmest appropriate water setting for the items and dried completely.
- Hampers or other carts for transporting laundry should be cleaned and then disinfected according to guidance above for hard or soft surfaces and below for disinfecting.

Disinfecting

- CAMP will provide EPA-registered household disinfectants proven effective at killing the SARS-COV-2 virus; Participants authorized to use them will follow the instructions on the label or provided during their training by CAMP Staff.
- All solutions and disinfectants will be applied according to the manufacturer's recommendations.
- Alcohol solutions with at least 70% alcohol may also be used, including alcohol wipes available in public restrooms at the Facility.

Cleaning and Disinfection After Persons Suspected/Confirmed to Have COVID-19 Have Been in the Facility

If it has been more than 7 days since a Participant with suspected/confirmed COVID-19 visited or used the Facility, additional cleaning and disinfection is not necessary. If it has been less than 7 days since such a person visited or used Camp CAMP, then:

- Follow CDC Guidance for Summer and Youth Camps: <https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/summer-camps.html>.
- Areas visited by anyone who was ill will be closed off until after cleaning and disinfecting them (including cleaning and disinfecting surfaces or shared objects in outdoor areas).
- If feasible, outside doors and windows should be opened, and/or the use of ventilating fans to increase air circulation in the area should be used, prior to and during cleaning.
- If feasible, CAMP Staff will wait at least 24 hours before cleaning and disinfecting. If 24 hours is not feasible, CAMP Staff will wait as long as possible, and then proceed with cleaning and disinfection as outlined above using all recommended Personal Protective Equipment (PPE).
- If a cabin or other area is not needed for use, CAMP Staff will wait at least 7 days, and then perform routine cleaning and disinfecting procedures.

Camp CAMP Activities COVID-19 Policies and Procedures

Activities will be designed to keep Participants socially distant as much as possible. Sharing of materials such as craft and athletic supplies will be kept at a minimum. If sharing of supplies is needed, staff will sanitize the item between use. Outdoor activities will be prioritized to ensure campers are in maximum ventilation for the majority of the day. While participating in indoor activities, staff will attempt to maximize general ventilation by utilizing window and door openings.

General Requirements

Staff and Volunteers:

- Every activity will be staffed by at least one CAMP Staff or Volunteer at all times
- All Staff and Volunteers must wear masks at all times
- Staff and volunteers must stay socially distanced from other Participants as much as possible
- Staff and volunteers must stay on-site at all times until departure, unless otherwise approved by Camp Director or Executive Camp Director

- All packages received by mail for staff and volunteers will be held for 24 hours before delivering to them
- A designated space will be made available for Staff to use during break times

Campers:

- All Campers must wear masks at all times inside communal spaces, when impossible to follow social distancing in outside settings, or when otherwise noted, unless unable to do so in accordance with Governor Abbott's Executive Order GA 29 that this face-covering requirement does not apply to the following:
 - any person with a medical condition or disability that prevents wearing a face covering (*hereafter, these criteria and exclusions will be defined as "wear masks at all times if able"*)
- Participants are responsible for following all posted rules and instructions given by CAMP Staff
- All packages received by mail for Campers will be held for 24 hours before delivering to campers.

Specific Program Area Protocols

Arts and Crafts:

- Camper Safety Protocols:
 - All Campers must wear masks at all times if able when inside buildings or outside when social distancing cannot be achieved
 - All Campers must hand sanitize before and after use of the Arts and Crafts area
 - Campers must stay socially distanced from other Participants not in their assigned Tribe/Half Tribe
 - Campers will be assigned a designated space at the Arts and Crafts Center and expected to stay in that space
 - Campers must use only the supplies and equipment provided by CAMP/from their assigned bin for entire session
 - Campers should ask the Staff and Volunteers for additional supplies as needed
 - Campers are encouraged to return to their assigned cabins to use the restroom if at all possible; if use of a restroom is necessary during a visit to the Arts & Crafts Center, Staff should be notified to ensure they clean and disinfect prior to next use
- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands frequently
 - Staff and Volunteers must sanitize all used equipment prior to each use
 - Arts & Crafts Instructors will be the only ones allowed to gather or replace materials (such as paint)
- Cleaning Procedures:
 - Staff will clean and disinfect any common supplies or equipment used for that session (i.e., that did not come from/return to the Tribe's/Half Tribe's assigned bin) prior to each use
 - Common supplies or equipment will be placed in a "Used" bin after session for cleaning

- Staff will clean and disinfect all tables before and after each session
- Staff will clean and disinfect all sinks and countertops before and after each session
- Staff will clean and disinfect any spaces that Participants will come in contact with before and after each session
- Staff will clean and disinfect all entrance and exit handles
- If restrooms are used, Staff will clean and disinfect those after each use
- Supplies/Equipment Needed
 - Hand Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution
 - Masks
 - Cleaning Towels
 - Instructional Signs
 - Standard Arts & Crafts supplies and equipment needed for planned projects

Aquatic Center (Pools/Splash Pad):

- Camper Safety Protocols:
 - Campers will be separated at the pool or have different swim times
 - Campers are encouraged to change before and after visiting the Aquatic Center in their assigned cabin
 - If unable to do so, designated bathhouse stalls will be available and disinfected between use
 - All Campers must hand sanitize before and after use of the pool area
 - Campers must stay socially distanced from other Participants not in their Tribe/Half Tribe and Lifeguards at all times (except during a lifesaving event)
 - No pool toys will be provided by CAMP for any reason with the exception of a Personal Floatation Device (PFD) or Inner Tube for the Slow River (Lifeguards will clean and disinfect these after each Tribe's/Half Tribe's use)
 - Campers should enter and exit through appropriate gates
 - Restrooms at the Aquatic Center should only be used if absolutely necessary, and each Tribe/Half Tribe will be assigned a restroom to use by the Lifeguards
 - Campers are encouraged to return to their assigned cabins to use the restroom if at all possible
 - If use of a restroom is necessary during a Tribe's/Half Tribe's visit to the Aquatic Center, Lifeguards should be notified to ensure they clean and disinfect prior to the next Tribe's/Half Tribe's visit
- Staff Safety Protocols
 - Staff and Volunteers must wear masks at all times except while in a pool
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must hand sanitize frequently
 - Staff and Volunteers must sanitize all used equipment before and after use
 - Lifeguards are the only individuals allowed in the Lifeguard Office or Equipment Storage Room

- Cleaning Procedures
 - Lifeguards will clean and disinfect lifeguard stations between sessions
 - Lifeguards will clean and disinfect gate or door entry and exit handles between sessions
 - Lifeguards will clean and disinfect any communal spaces between sessions
 - Lifeguards will clean and disinfect any chairs/benches used during session between sessions (following procedures for Porous or Non-Porous Surfaces outlined above)
 - Lifeguards will clean and disinfect any equipment used during the session by Participants
 - PFDs
 - Inner Tubes
- Supplies/Equipment Needed:
 - Hand Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution
 - Masks
 - Cleaning Towels
 - Instructional Signs
 - Standard Aquatic Center supplies and Safety Equipment

CAMPfire:

- Camper Safety Protocols:
 - All Campers must wear masks at all times if able when social distancing cannot be achieved
 - All Campers must hand sanitize before and after use of Campfire equipment
 - Campers will be called one Half Tribe at a time for a turn to make S'mores by CAMP Staff
- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands and change gloves frequently
 - Staff and Volunteers must sanitize all used equipment prior to each Half Tribe's use
- Cleaning Procedures:
 - Staff will clean and disinfect any equipment used for session and prior to each Half Tribe's use
 - Any unused supplies (food) will be disposed of if not consumed
- Supplies:
 - Hand Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution
 - Masks
 - Cleaning Towels
 - Instructional Signs
 - Standard CAMPfire supplies and safety equipment

Canoeing:

- Camper Safety Protocols:
 - All Campers must wear masks if able while launching the canoe into the river and docking the canoe. While Campers are in the river, they will be allowed to remove their masks.
 - All Campers must hand sanitize before and after use of the canoeing area
 - Campers must stay socially distanced from other Tribes/Half Tribes while waiting to load and unload canoes
- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times except when lifeguarding from the water
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands frequently
 - Staff must sanitize all used equipment prior to each use
- Cleaning Procedures:
 - Staff and Volunteers will clean and disinfect each canoe prior to each new Tribe's/Half Tribe's use
 - Staff and Volunteers will clean and disinfect gate handles between each Tribe's/Half Tribe's use
 - Once PFDs are used, they will be placed on the gate/fence designed for used PFDs
 - Staff will clean and disinfect all PFDs with appropriate disinfectant solution or electrostatic spray prior to each use
 - If possible, PFDs will only be used by 1 Participant during each scheduled activity period
- Supplies/Equipment Needed:
 - Hand Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution
 - Masks
 - Cleaning Towels
 - Instructional Signs
 - Standard Canoeing supplies and safety equipment

Horseback:

- Camper Safety Protocols:
 - All Campers must wear masks at all times if able outside when social distancing cannot be achieved
 - All participants must hand sanitize before and after use of the area
- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands frequently
 - Staff and Volunteers must sanitize all used equipment prior to each use

- Cleaning Procedures:
 - Helmets, tack, and other items touched by any Participant will be cleaned and disinfected between use using the designated cleaner and protocols
- Supplies/Equipment Needed:
 - Hand Sanitizer
 - Tack Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution
 - Masks
 - Cleaning Towels
 - Instructional Signs
 - Standard Horseback supplies and equipment

Nature:

- Camper Safety Protocols:
 - All Campers must wear masks at all times if able when inside building or outside when social distancing cannot be achieved
 - All Campers must hand sanitize before and after use of the area or handling of animals
- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands frequently
 - Staff and Volunteers must sanitize all used equipment prior to each use
- Cleaning Procedures:
 - Cages, equipment, or other surfaces touched by any Participant will be disinfected between use
- Supplies:
 - Hand Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution
 - Masks
 - Cleaning Towels
 - Instructional Signs
 - Standard Nature supplies and equipment

Outdoor Cooking:

- Camper Safety Protocols:
 - All Campers must wear masks at all times if able, except while eating
 - All Campers must hand sanitize before and after using Outdoor Cooking equipment
 - Campers must stay socially distanced from other Participants not in their Tribe/Half Tribe while waiting to participate
 - Each Camper will consume only the item(s) that they make during Outdoor Cooking

- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must hand sanitize frequently
 - Staff and Volunteers must sanitize all used equipment prior to each use
 - Only Outdoor Cooking Instructor will handle food that will be distributed to Participants, and will do so wearing gloves
 - All serving items and utensils will be disposable
- Cleaning Procedures:
 - Staff will clean and disinfect all used outdoor cooking equipment
 - Any unused supplies (food) will be disposed of if not consumed
- Supplies/Equipment Needed:
 - Hand Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution
 - Masks
 - Cleaning Towels
 - Instructional Signs
 - Standard Outdoor Cooking supplies and safety equipment

Sports & Recreation (Lawn Games) and Gaga Ball:

- Camper Safety Protocols:
 - All Campers must wear masks at all times if able
 - All Campers must hand sanitize before and after use of the Sports & Recreation area or Gaga Ball Pit
 - Campers must stay socially distanced from other Participants, not in their Tribe/Half Tribe
 - Campers are encouraged to play sports within their Tribe/Half Tribe
 - Campers must use the same equipment for entire scheduled activity period
- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands frequently
 - Staff and Volunteers must sanitize all used equipment before and after use
- Cleaning Procedures:
 - Staff will clean and disinfect any equipment used for session before and after each session (e.g., kickballs, footballs, soccer balls, gaga balls, frisbees, etc.)
 - Equipment will be placed in a “Used Equipment” bin after session for cleaning
- Supplies/Equipment Needed:
 - Hand Sanitizer
 - Gloves
 - Sanitizing Wipes
 - Appropriate disinfectant solution

- Masks
- Cleaning Towels
- Instructional Signs
- Standard Sports & Recreation or Gaga Ball equipment

Target Sports (Archery/Paintball):

- Camper Safety Protocols:
 - Only one Tribe/Half Tribe is allowed per Target Sports session
 - All Campers must wear masks at all times if able
 - All Campers must hand sanitize before and after use of the archery area
- Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands frequently
 - Staff and Volunteers must sanitize all used equipment before and after use
 - Staff and Volunteers will preset all equipment for each Tribe/Half Tribe prior to arrival
 - Only Staff and Volunteers are allowed in Equipment Storage Rooms
- Cleaning Procedures:
 - Staff and Volunteers will clean and disinfect all bows, arrows, paintball guns, or safety goggles (that are intended to be reused) prior to each use
 - Staff and Volunteers will clean and disinfect any additional equipment/hardware prior to each use
- Supplies/Equipment Needed:
 - Hand Sanitizer
 - Gloves

Additional Evening Programs for Staff and Volunteers:

- Socially distanced night activities may be offered at night for Staff and Volunteers after Campers return to their cabins for the night
- No matter the activity, the following protocols and procedures apply to evening programs:
 - Staff Safety Protocols:
 - Staff and Volunteers must wear masks at all times
 - Staff and Volunteers must maintain social distance as much as possible
 - Staff and Volunteers must sanitize hands frequently
 - Staff and Volunteers must sanitize all used equipment before and after use
 - Cleaning Procedures:
 - Staff and Volunteers will clean and disinfect used items or equipment (that are intended to be reused) prior to each use
